## KERN BALANCES \& TEST SERVICES CATALOGUE 2020

School balance KERN EMB

Entry level laboratory balance with tremendous weighing performance

## Features

- Simple and convenient 2-key operation
- Tare function facilitates formulation work
- Particularly flat design
- Ready for use: Batteries included
- 1 Ring-shaped draught shield standard, only for models with weighing plate size A, weighing space $\varnothing \times \mathrm{H} 96 \times 35 \mathrm{~mm}$
- Hook for underfloor weighing standard
- 2 Note: KERN EMB 500-1BE Black Edition
- Note: With the optional auxiliary set for density determination KERN YDB-01 also well suited for school and teaching operation

## Technical data

- Large LCD display, digit height 15 mm
- Dimensions weighing surface, plastic, with conductive lacquer
A $\varnothing 82 \mathrm{~mm}$
B $\varnothing 105 \mathrm{~mm}$
C. $\varnothing 150 \mathrm{~mm}$, see larger picture
- Weighing plate material A plastic, with conductive lacquer
B, C plastic
- Net weight approx. 0,75 kg
- Batteries included, 9 V block or $2 \times 1.5 \mathrm{~V} \mathrm{AA}$
- Permissible ambient temperature $5^{\circ} \mathrm{C} / 35^{\circ} \mathrm{C}$

## Accessories

- Stainless steel weighing plate, only for models with weighing plate size $B$, KERN EMB-A02
- 3 Stack frame for space-saving storage of precision balances from the KERN EMB range, scope of delivery 5 pieces, for models with housing dimensions $\mathrm{W} \times \mathrm{D} \times \mathrm{H}$ $170 \times 244 \times 39 \mathrm{~mm}$, KERN EMB-A07 $170 \times 244 \times 52 \mathrm{~mm}$, KERN EMB-A09
- External universal mains adapter, with universal input and optional input socket adapters for EU, GB, USA, KERN YKA-03N
- 4 Ancillary kit for density determination of liquids and solids with density $>1$. Scope of supplies: Weighing plate ( $\varnothing 102 \mathrm{~mm}$ ), hook (H 139 mm ), suitable for models with weighing plate size $A$, KERN YDB-04

| Model <br> KERN | Weighing capacity <br> [Max] <br> g | Readability <br> [d] <br> g | Reproducibility <br> g | Linearity <br> g | Weighing plate | Option |  |

| EMB 5.2K5 | 5200 | 5 | 5 | $\pm 10$ | C | 963-128 |  |

## Pictograms

## Internal adjusting:

Quick setting up of the balance‘s accuracy with internal adjusting weight (motordriven)

Adjusting program CAL:
For quick setting up of the balance's accuracy.
External adjusting weight required
Easy Touch:
Suitable for the connection, data transmission
and control through PC, tablet or smartphone

## Memory:

Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.

Alibi memory:
Secure, electronic archiving of weighing results, complying with the 2014/31/EU standard.

Data interface RS-232:
To connect the balance to a printer, PC or network

## RS-485 data interface:

To connect the balance to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

USB data interface:
To connect the balance to a printer, PC or other peripherals

Bluetooth* data interface:
To transfer data from the balance to a printer,
PC or other peripherals

## WLAN data interface:

To transfer data from the balance to a printer,
PC or other peripherals

Control outputs (optocoupler, digital I/O):
To connect relays, signal lamps, valves, etc.

## Analogue interface:

to connect a suitable peripheral device for analogue processing of the measurements

Interface for second balance
For direct connection of a second balance

## Network interface

For connecting the scale to an Ethernet network

## Wireless data transfer:

between the weighing unit and the evaluation unit using an integrated radio module
*The Bluetooth ${ }^{\text {® }}$ word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by KERN \& SOHN GmbH is under license. Other trademarks and trade names are those of their respective owners.

KERN Communication Protocol (KCP):
It is a standardized interface command set for
KERN balances and other instruments, which allows retrieving and controlling all relevant parameters and functions of the device. KERN devices featuring KCP are thus easily integrated with computers, industrial controllers and other digital systems

## GLP/ISO log:

The balance displays serial number, user ID, connection

GLP/ISO log:
With weight, date and time. Only with KERN
printers

## Piece counting:

Reference quantities selectable. Display can be switched from piece to weight

Recipe level A:
The weights of the recipe ingredients can be added together and the total weight of the recipe can be printed out

Recipe level B:
Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display

Recipe level C:
Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display, multiplier function, adjustment of recipe when dosages are exceeded or barcode recognition

Totalising level A:
The weights of similar items can be added
together and the total can be printed out

Percentage determination:
Determining the deviation in \% from the target value ( $100 \%$ )

## Weighing units:

Can be switched to e.g. nonmetric units at the
touch of a key. See balance model. Please refer to KERN's website for more details

## Weighing with tolerance range:

(Checkweighing) Upper and lower limiting can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model

## Hold function

(Animal weighing program) When the weighing conditions are unstable, a stable weight is calculated as an average value

Protection against dust and water splashes IPxx: The type of protection is shown in the pictogram.

## Stainless steel:

The balance is protected against corrosion

## Suspended weighing:

Load support with hook on the underside of the balance

Battery operation:
Ready for battery operation. The battery type is specified for each device

Rechargeable battery pack:
Rechargeable set

## Universal mains adapter:

with universal input and optional input socket adapters for A) EU, CH, GB; B) EU, CH, GB, USA; C) $\mathrm{EU}, \mathrm{CH}, \mathrm{GB}, \mathrm{USA}, \mathrm{AUS}$

## Mains adapter:

$230 \mathrm{~V} / 50 \mathrm{~Hz}$ in standard version for $\mathrm{EU}, \mathrm{CH}$.
On request GB, USA or AUS version available

## Power supply:

Integrated in balance. $230 \mathrm{~V} / 50 \mathrm{~Hz}$ standard EU.
More standards e.g. GB, USA or AUS on reques

Weighing principle: Strain gauges
Electrical resistor on an elastic deforming body

## Weighing principle: Tuning fork

A resonating body is electromagnetically
excited, causing it to oscillate

Weighing principle: Electromagnetic force compensation
accurate weighings

The time required for DAkkS calibration
is shown in days in the pictogram

## Package shipment:

The time required for internal shipping preparations is shown in days in the pictogram

## Pallet shipment:

The time required for internal shipping
preparations is shown in days in the pictogram

## KERN - Precision is our business

To ensure the high precision of your balance KERN offers you the the appropriate test weight in the international OIML error limit classes E1-M3 from $1 \mathrm{mg}-2500 \mathrm{~kg}$. In combination with a DAkkS calibration certificate the best pre-requisite for proper balance calibration.

The KERN DAkkS calibration laboratory today is one of the most modern and bestequipped DAkkS calibration laboratories for balances, test weights and force-measurement in Europe.
Thanks to the high level of automation, we can carry out DAkkS calibration of balances, test weights and force-measuring devices 24 hours a day, 7 days a week.

## Range of services:

- DAkkS calibration of balances with a maximum load of up to 50 t
- DAkkS calibration of weights in the range of 1 mg - 2500 kg
- Volume determination and measuring of magnetic susceptibility (magnetic characteristics) for test weights
- Database supported management of checking equipment and reminder service
- Calibration of force-measuring devices
- DAkkS calibration certificates in the following languages DE, GB, FR, IT, ES, NL, PL
- Conformity evaluation and reverification of balances and test weights
